

# Tennessee Infrastructure Scorecard Workshop

1-day

TAUD, in partnership with TDEC will be hosting a third round of training workshops on the Tennessee Infrastructure Scorecard version 2.0. The Scorecard is designed to benchmark technical, operational, managerial, and financial performance of utility systems. Results from the Scorecard identify critical needs in several areas including asset management, water, wastewater, and stormwater. Instructors will provide a comprehensive review of how to complete a Scorecard and interpret the results. With most systems underway with the scorecard completion process, this class will highlight aspects of the scorecard including Scorecard Overview, I/I Calculations, Water Loss, Knowing System AMP, and Scorecard Financials.

***Please limit in person attendees to two per utility, but all utilities are welcome to send unlimited employees online.***

**Webinar details will be sent to each registrant.**

### **Class Date/ Location:**

- 5/10 Lexington
- 5/11 Dickson
- 5/16 Harriman

Lexington  
54 Monroe St.
