For water treatment & distribution system operators to learn about changes in the Safe Drinking Water Act, Division of Water Supply Regulations, operator certification and other state and federal rules impacting operations and compliance. Upon completion of this course the learner will be able to: comply with the requirements of the Safe Drinking Water Act, and Division of Water Resources Regulations 400-5-1-.01 et seq, and operator certification rules and regulations.

This training was originally planned to renew the Level 2 Assessment Certification however since implementation of the rule in April 2016, it has become apparent that very few level 2 assessments are being triggered under the rule and TDEC believes that ROCR rule implementations has been effective and the need for the certification of Level 2 assessors is not necessary or justified. Therefore this class will NOT renew the Level 2 certification.

Cost: No Fee

Time: 8:00 am -3:30 pm
