

Water Treatment Webinar Block B

Webinar

CE: 3hrs WT or DS

OE: None

TAUD is offering a new continuing education opportunity for water treatment operators. With social distancing becoming the norm, we developed a 3-hour or 6-hour webinar program for operators. Each webinar will begin at 12 pm central on the date listed and last until 3 pm central. An operator may choose to complete one Block and receive 3 CE hours or both Blocks A&B to receive 6 CE hours. The operator must attend every presentation in a block and answer the poll questions to receive credit. The presentations will be conducted through Zoom so all an attendee needs to attend this webinar is a smart device including computer, tablet or phone with internet connection.

Block B

During this program, we will cover different corrosion control implementations for the Revised Lead and Copper Rule (RLCR) compliance. The different steps that will be required should a system exceed the trigger level will be covered. We will also cover water treatment options and steps for continued compliance after the proper corrosion control technique has been developed.
