

Biosolids Land Application Update Class

CE: 3.0 hrs WW

September 22nd, 2025

8:00 AM - 11:00 AM

Registration

contact:

(615) 900-1000

Class Date:

9/22/2025

Class Location

☐ **Murfreesboro**

☐ **Webinar**

Class Location

TAUD

**Training Station
840 Commercial Ct.
Murfreesboro, TN**

TAUD will be conducting a 3-hour class covering the 2025 General Permit for Land Application of Biosolids. The class will include a TDEC regulatory update on the non-EQ biosolids and new sampling requirements. Waypoint Analytical and Metiri Group will present information on biosolids PFAS sampling, collection and reporting. The class is approved for 3.0 hours of continuing education credit toward any wastewater certification.

Cost: No Fee (Funded through grant from USDA)

Time: 8:00 am – 11:00 am

Presenters:

John Newberry- TDEC Biosolids Coordinator

Noelle DeStefano, Ph.D. is the National PFAS Sector Lead at Metiri Group and an environmental analytical chemist specializing in high-resolution mass spectrometry. With over 15 years of experience developing and validating analytical methods, guiding laboratory teams, and interpreting complex data, she helps clients navigate PFAS regulations, design sampling strategies, and turn laboratory results into actionable insights. She is passionate about advancing science to protect human health and the environment. Noelle earned her Ph.D. in Environmental Analytical Chemistry from Duke University and her B.S. in Chemical Oceanography from the Florida Institute of Technology.
