Need tools to meet the new water loss regulations and/or cost effectively reduce water loss? Don't miss this opportunity to learn how to tackle the basics of water loss control for your distribution system. This two-day workshop is tailored to enabling utilities to implement cost effective water loss management strategies. A combination of technical presentations and hand-on in the field live demonstrations by various technical experts will be performed in this workshop. This workshop is especially timely and valuable given the new regulations in TN around water loss control and available ARP grant funds for implementation of a cost-effective water loss control program.

Cost: \$265 TAUD Member
\$525 Non-member

Time: 8:30 am -4:00 pm

Questions:

Brent Ogles
brentogles@taud.org

What topics will be covered?

This two-day Water Loss Control workshop will guide you through the process of implementing cost effective corrective action to reduce non-revenue water. Utilities will learn how to assess the volumes and values of Apparent Losses and Real Losses (leakage) and the cost-effective options to reduce these losses. The first day of the workshop will focus on the software tool (AWWA Free Water Audit Software v6) used to evaluate your water loss and guide the paths to reduce losses, metering technology, and hands-on meter accuracy testing. The second day will focus on Real Losses including District Metered Areas (DMAs), line locating and acoustic leak detection & pinpointing with hands-on in the field use of the equipment for locating lines & leaks.

Instructor: Ten instructors with many years of technical experience from Tennessee in the various components of water loss will be teaching throughout this workshop.

Real life experiences from Tennessee experts.
